

SoundPort™ Flex

The Ultimate  For Business

Introducing
SoundPort™ Flex.

Customized

Wireless Communication

Designed for people who want the ultimate solution in comfortable, hands-free Bluetooth wireless communication devices.

The SoundPort Flex Bluetooth Headset and inset of custom earmold

Unlike traditional wireless headsets, SoundPort Flex features an optional custom-fit earpiece, which is expertly molded to fit the exact contours of your outer ear.

The custom-fit earpiece anchors SoundPort Flex's digital electronics, creating an open, lightweight system that delivers the freedom and safety to work and drive while using a cellular phone. In addition, our custom-fit earpiece allows you to hear sounds around you without creating a plugged sensation in your ear.

The added feature of a flexible boom microphone provides superior outgoing voice quality in noisy surroundings.

SoundPort Flex is part of the ListenHear™ family of audio solutions from Starkey Laboratories, Inc., the world's largest manufacturer of custom hearing technology for over 40 years.

SoundPort™ FleX is available from your local hearing specialists and authorized retailers.
