

You Have the Power to Change Your Life

Make sure you hear more of everything this holiday season. If you are having trouble with your hearing, you know the holidays will be challenging. It's tough to stay in the conversation with so many people talking all at once. This year, don't let hearing loss come between you and your loved ones. Enjoy the little things - the jokes, the whispers, the memories.

The Place for Better Hearing wants to help you change your life. We work with the most advanced hearing aids available today: S Series, by Starkey. They are the next generation of hearing aids, available today! They are powerful enough to process sounds quickly and efficiently, yet sophisticated enough to pick up a whisper.

Every hearing aid in the S Series family has been designed to perform in the most challenging listening situations. If you've been waiting for hearing aids that provide performance, comfort, and personalization, S Series are the hearing aids for you.

The time for better hearing is now. Only you have the power to change your life. Call The Place for Better Hearing at (513)922-0123 to schedule an appointment or visit us at www.hearingbetter.net.
